BIBLIOGRAPHY OF INFECTIOUS DISEASES
FROM SOVIET PERIODICAL, MARCH 1953

B. A. Ivanov

Comment: The following list of titles is taken from a bibliography in Zhurnal Mikrobiologii, Epidemiologii i Immunobiologii for March 1953. The articles were published in USSR periodicals and collections during the third quarter of 1952. Only titles from publications, or certain issues thereof, which, as far as could be determined, are not available in the US are included herein.⁷

General Problems /5 articles/

Account of the Work of the Kuzbass Branch of the All-Union Society of Hygienists, Epidemiologists, Microbiologists, and Infectionists imeni I. I. Mechnikov. Zdravookhraneniye Kazakhstana (Public Health of Kazakhstan), Vol 3, 1952, pp 48, 49.

Microbiology and Immunology /23 articles/

B. Ye. Ayzenman -- Antibiotic Substances of Microbes as Evolutionary and Development Characteristics. Mikrobiolog. Zhurnal, Vol 14, No 3, 1952, pp 78-86.

A. K. Balitskaya -- The Production of Vaccines and Diagnostic Preparations in Hydrolyzed Media. Trudy Nauchno-kontrol'nogo Instituta Veterinarnykh Preparatov (Work of the Scientific Control Institute of Veterinary Preparations), Moscow, Vol 3, 1952, pp 251-256.
